Students who would like to transfer the study results from informal and non-formal education system can process through the system from October 7-17, 2024. Entering to the system and find more detail at

<https://www1.reg.cmu.ac.th/reg-transfer/>

REG-ALERT

Students can do pre-enrollment in semester 2/2024 from now until September 29, 2024 (11.59 PM)

at the website: <https://regist.reg.cmu.ac.th/>

The processing of pre-enrollment will be processed only once.

You can check the result of pre-enrollment on **October 8, 2024 onwards**.

In this academic year, the registration office has changed the processing system. See how the new system process in the next page.

Recommendation of Registration Processing System Assessment (Priority Enrollment)

Priority Enrollment is a processing system by ordering priority according to the study plan.

This system provided students according to the priority into 3 groups:

Group A is students who have enrolled for courses according to the curriculum structure.

Group B is students who have enrolled for courses according to the curriculum structure, but have not go as the plan. For example, the second year student must enroll some courses in the first semester as the plan of curriculum, but enroll in the second semester instead.

Group C is students who have enrolled for any courses, besides the curriculum structure.

If students of 3 groups enroll for a same course at the same time, Group A will enroll successfully first, followed by groups B and C respectively. In case of the course do not have enough available seat, The system will prioritize student who put the course in the higher enrollment order and the higher year hierarchy first. (higher enrollment order and higher year hierarchy must have higher chance), The system will choose randomly if both of the referred groups of students are equal.

For example

A course have available for 5 seats, Group A have enrolled for 4 seats, Group B have enrolled for 2 seats, and Group C have enrolled for 2 seats, Therefore, All students of group A, a student of group B will enroll the course successfully. while the students in group C will not be able to enroll.

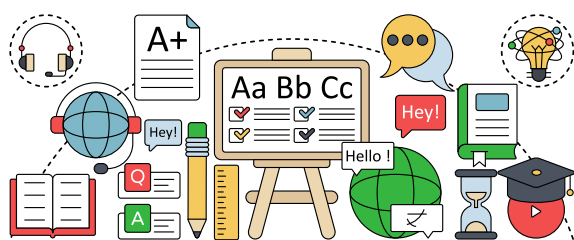

The ranking of CMU-eGrad results

CMU-eGrad is a general proficiency examination test for the last year student. This test will lead students know their English skill level before graduation.

The criteria of CMU-eGrad related to the Council of Europe's Common European Framework by ranging in 3 levels : B1 B2 and A2. Student who has taken CMU-eGrad, can be download the result of the test on **September 27, 2024** Via CMU email address (@cmu.ac.th). file will be expired in 90 days.

Do not forget to download!

REG-STAT

The percentage of students at each level, compared to the total number of students, who took the CMU-eGrad exam for the academic year 2024
