"35 YEARS OF REGISTRATION OFFICE"

The seventh decade (2024-2033)

In the seventh decade, the registration office is determined to develop new services with cutting-edge technology to effectively support Future learners, including:

Data-Driven Organization

WE analyze academic registration data and present it through the Data Service system in order to assist the decision making of the university and other divisions with the CMU Think-Tank with an aim to become a Data-driven university

Proactive Services

We also strive to provide a proactive service by empasizing on the utilization the registration database in building A knowledge base for personalized recommendation, which supports the information planning of student journeys using Al-Driven Recommendation Processes

DIGITAL DOCS-FIRST Prioritize Digital Documents, Use less paper

To help drive Chiang Mai University's educational development plan to achieve Organizational management Excellence and sustainable development in Education management to become Intelligence University.
